Data Privacy and Protection

Policy owner	Data Protection Officer	**Effective date**	To be set on approval
Version	0.1 (draft for review)	**Next review**	12 months after approval

1. Purpose

Explains how the company collects, uses, stores, shares and deletes personal data of employees, candidates and others, lawfully and transparently.

2. Scope

All employees, interns, contractors and temporary staff of Mindspace Artificial Intelligence Inc. and its subsidiaries in Kenya, Uganda, Tanzania, South Africa, Egypt, Nigeria, Mexico and New Zealand, and remote staff in any other country (including those engaged through an Employer of Record), whether on-site, hybrid or fully remote. It covers all personal data processed in the HR portal, apps, payroll and other systems.

3. Policy

3.1 Laws we follow. Kenya Data Protection Act 2019, Uganda Data Protection and Privacy Act 2019, Tanzania Personal Data Protection Act 2022, South Africa POPIA, Egypt Personal Data Protection Law 2020, Nigeria Data Protection Act 2023, Mexico's federal personal data protection law, and New Zealand Privacy Act 2020, using the strictest standard where they differ.

3.2 Principles. Data is collected for clear purposes, limited to what is needed, kept accurate, stored securely and kept no longer than necessary.

3.3 Employee data we hold. Identity, contact, job, pay, tax, bank, attendance, leave, performance, training, benefits, health data where needed (for example sick leave), and system logs.

3.4 Sensitive data. Health, religion, biometrics and similar data are processed only with a legal basis, extra protection and limited access.

3.5 Your rights. Access, correction, deletion where lawful, restriction, objection and portability. Use form HR-F18 or the portal; responses within 30 days or sooner if local law requires.

3.6 Cross-border transfers. Data moves between countries only with appropriate safeguards, such as standard contractual clauses and any registration or approval local regulators require.

3.7 Security. Encryption, role-based access, two-step sign-in, audit logs and regular testing protect data.

3.8 Breaches. Suspected breaches must be reported to the Data Protection Officer immediately. Regulators and affected people are notified within the legal deadlines (as short as 72 hours in several countries).

3.9 Retention. Payroll and tax records are kept for the period each country's law requires (commonly 5 to 7 years after the tax year); other HR records are deleted on schedule.

4. Responsibilities

- **Data Protection Officer:** Oversees compliance, registrations with regulators and breach response.
- **Managers:** Access only the data their role needs.
- **Employees:** Keep personal data confidential and report breaches.

Data Privacy and Protection

5. Country addenda

Where the law of Kenya, Uganda, Tanzania, South Africa, Egypt, Nigeria, Mexico or New Zealand gives employees greater rights than this policy, the law applies. Each country's HR lead keeps a short addendum listing local differences, published with this policy in the Policy Centre.

6. Related forms and policies

- HR-F18 Data Subject Access Request
- HR-F14 Change of Personal or Bank Details

7. Acknowledgement

Employees confirm they have read this policy in the portal's Policy Centre. Breaches may lead to disciplinary action under POL-18. Questions go to HR or the policy owner.

Draft prepared for Mindspace Artificial Intelligence Inc., based on common US multinational practice. It is not legal advice and must be reviewed by qualified counsel in each operating country before adoption.
